

EPHC MEDICAL STAFF

It is the mission of Eastern Plumas Health Care to provide quality medical services to those who reside in or visit our region. In concert with our community, we work to restore, preserve and promote the health and well being of the community as a whole.

Eastern Plumas Health Care is proud of its medical team. We do our best to recruit only Board Certified Physicians. Whether you are seen in our ER, Clinics, or Dental Office, we want you to rest assured that we have fully researched every candidate before making a decision to allow them to serve the community. The patient comes first, it's right there in our Mission Statement.
